ELEVATE YOUR EXPECTATIONS EXPERIENCE ACONTEC

Who we Are.

Elevate your expectations with Acontec: Shaping a Sustainable Future in Oil & Gas. As a stalwart in the industry, Acontec Engineering WLL leads the way with a commitment to energy sustainability and clean practices. Certified in ISO standards for Quality Management, OH&S, Environmental Management, and Facility Management, our Integrated Management Systems (IMS) approach optimizes operations globally.

In our vision, we pioneer efficient chemical supply while integrating sustainability and clean energy into our distribution network. Acontec offers a diverse product range, from commodity and specialty chemicals to oilfield equipment and accessories. Our focus on value addition and a customer-centric approach ensures top-tier quality services.

Explore our extensive product range, including commodity products, specialty items for mud and cement additives, industrial products, acids, water treatment solutions, and high-quality oilfield equipment. We take pride in delivering excellence that comprehensively addresses the multifaceted needs of the global

Oil & Gas industry.

Step into our exclusive storage spaces strategically located near Hamad Port and Ras Laffan. Our commitment to excellence is evident in our world-class Inventory Management Systems, ensuring a consistently smooth experience for our clients.

Experience unmatched expertise in international and multi-modal transport globally. Whether it's ocean freight, air cargo, ground transportation, or project cargo solutions, our adept team ensures secure and efficient transport of your critical chemical cargo across borders.

Certified in ISO 9001:2015, ISO 18001:2007, ISO 14001:2015, and 41001:2018, Acontec stands as a symbol of quality, safety, and sustainability. Fuel your success with tailored oilfield solutions – connect with us today and join the journey towards a cleaner and sustainable energy future."

VALUE PROPOSITION

"Leading the Way with Customized Solutions for Global Challenges in Oil & Gas Supplies Sales, Trade, Storage and Distribution"

OUR VISION

- 1. Pioneering efficient chemical supply and manufacturing whileupholding HSE standards, integrating sustainability and clean energy in ou distribution network.
- 2. Alleviating client burdens by streamlining processes, reducing inventory costs, and exposure risks.
- 3. Committed to delivering top-tier quality services that prioritize safety and reliability for our clients.
- 4. Aiming to be the pivotal force in efficient chemical distribution and cost-effective inventory management while upholding high standards of safety and service quality.

Our Product | We offer an extensive array of chemicals on a global scale, featuring the following core products. Moreover scale, featuring the following core products. Moreover we can facilitate trade in specialized or specific chemicals upon request.

COMMODITY PRODUCTS

- **API Grade Barite 4.1**
- **API Grade Barite 4.2**
- Calcium Carbonate (F\M\C)
- Calcium Chloride Powder
- **Calcium Bromide Liquid**
- Caustic Soda Pril\Liquid\Flakes
- Magnesium Oxide
- **Sodium Sulfite**
- Sodium Chloride Powder
- **Sodium Bromide Liquid**
- Citric Acid
- Bentonite (API\OCMA)
- **Potassium Chloride Powder**
- **Sodium Bicarbonate**
- Soda Ash (Dense & Light)

SPECIALTY PRODUCTS FOR MUD (WBM\SOBM) & Cement Additives

- **Emulsifiers**
- **Wetting Agents**
- **Filtration Control Additives**
- Viscosifiers
- **Oxygen Scavengers**
- **Corrosion Inhibitors**
- Lubricants
- **Shale Inhibitors**
- Thinners
- **Surfactants**
- Biocide
- **Loss Control Material**
- Retarder
- **Accelerators**
- **Antifoam Agent**
- **Dispersant**

INDUSTRIAL PRODUCTS

- **Dolomite**
- **Precipitated Calcium Carbonate**
- **Treated Calcium Carbonate**
- Silica Sand
- **Frac Sand**
- Silica flour
- Glycol
- **Ground Marble powder**
- **PAC LV**
- EDTA
- **Mutual Solvent**
- **Sodium Erythorbate**

ACIDS

- Hydrochloric Acid (HCI)
- Sulphuric Acid (H2SO4)

WATER TREATMENT

- **Sodium Permanganate NaMnO**
- Ferric Sulfate Fe(SO)
- Lime Slurry Ca(OH)
- **Sodium Hydroxide (Caustic Soda)**

Fluoride (Hydrofluosilicic Acid) HSiF

05

- **Sodium Hypochlorite**
- Orthophosphate
 - (Ortho-Poly Phosphate)
- Liquid Ammonium Sulfate (NH)SO)

DOWNSTREAM CHEMICALS

- **Corrosion Inhibitors**
- **Emulsion Breakers**
- **Demulsifiers**
- **Sulfur Scavengers**

Oilfield Equipment Accessories

Experience Excellence in Oilfield Solutions! Acontec is your premier source for a wide spectrum of oilfield equipment and casing accessories. Our global sourcing team ensures competitive market rates without compromising on quality. Explore our extensive range, including cutting-edge drilling tools, production equipment, valves, and a comprehensive selection of casing accessories such as couplings, centralizers, and casing heads. Whether you are gearing up for exploration or production, our commitment to top-notch equipment and accessories guarantees efficiency and reliability. Partner with Acontec for unparalleled expertise and premium solutions that drive success in the oil and gas industry.

INFRASTRUCTURE

Embark on a journey into our secure storage facility situated in the heart of Birkat Al Awamer, Industrial Area, strategically positioned near the bustling Hamad Port. Our ongoing warehouse operations in Zubara, adjacent to the Ras Laffan base, showcase a meticulously designed enclosed open/shaded warehouse area. This space is dedicated to meeting diverse chemical storage requirements, prioritizing safety, health, environment (HSE), and stringent quality (SQ) standards while providing all essential facilities. Our commitment to excellence is evident through the implementation of world-class Inventory Management Systems. These systems are recognized for their superior quality, ensuring uninterrupted, 24/7 services. This dedication guarantees a consistently smooth and hassle-free experience for all our valued clients.

Seamless Global Chemical Logisticst

Experience Unmatched Expertise in International & Multi-Modal Transport Globally. Harness our extensive proficiency in the realm of international chemical logistics across the world, supported by our global offices. We offer a comprehensive suite of logistics services, overseeing all modes of transportation and managing intricate value-adding operations for your company's goods across the Middle East region.

Support

Count on our adeptness to ensure the secure and efficient transport of your critical chemical cargo globally. We pride ourselves on delivering custom-tailored solutions to precisely fit your logistics demands on a worldwide scale, leveraging our global presence to ensure seamless transportation and logistics management across borders.

Our Diverse Offerings Encompass

- Ocean Freight
- Air Cargo
- Ground & Rail Transportation
- Project Cargo Solutions
- Warehousing & Customized Logistics Services
- Streamlined Customs Clearance
- Tailored Outsourcing & In-house Logistics

Certifications and Compliance

- ISO 9001:2015 for Quality Management System (QMS),
- ISO 18001:2007 for OH&S Management System
- ISO 14001:2015 for Environmental Management System (EMS)
- 41001:2018 for Facility Management System
